

Int'l. Appln. No. PCT/EP2004/005106

Serial No. 10/560,996

Preliminary Amendment

AMENDMENT TO THE SPECIFICATION

On page 19 of the English translation which was submitted on December 16, 2005, please replace the second to last paragraph as follows:

Because ~~J_y > J_x, J_{yz} ≈ J_z~~ (...) - J_y (...) and because ~~J_y > J_{yz}~~ should be large, J_z is actually the more important variable, J_y can be used as the reference variable solely for the reason that the afore-mentioned relation J_z ≈ 2 J_y applies.
